

MEZZA LUNA PROGRESSIVE LED MIRROR

INSTALLATION INSTRUCTIONS & USER MANUAL

Thank you for purchasing our product!

Please follow the instructions in this manual carefully.

Please keep the manual properly stored for future reference.

Regarding future product updates, the product is subject to change without prior notice.

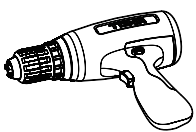

Illustrations in this manual serve as visual demonstration.

In order to guarantee that the product will always function optimally, and to ensure your personal safety, please read and follow these installation instructions carefully before starting.

PRIOR TO INSTALLATION

It is important that the product is unpacked and inspected for any damage or defects, and that the product supplied is correct. If any of the above is apparent, DO NOT PROCEED WITH THIS INSTALLATION AND IMMEDIATELY CONTACT THE STORE OF PURCHASE.

Electric/Battery Drill

Drill Bit

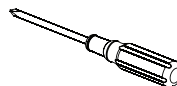

Tape Measure (3-5m)

Spirit Level

Pencil

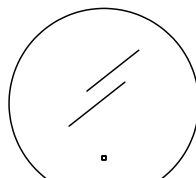

Screw Driver

SUPPLIED IN BOX

Fixings

Mirror

Mounting Brackets

IMPORTANT

This mirror must be installed by a licensed electrician in accordance with the AS/NZS 3000 : 2018 Standard for Electrical Safety. Make sure the electrical supply is switched off at the mains before starting any installation or maintenance. There must also be a means of disconnecting the fixed wiring in accordance with the regulation. Please discuss the location of the mirror with your Electrician before installation with particular reference to the wet area zoning for bathrooms.

The mirror is IP44 rated and suitable for indoor use only. Do not connect to a plug and socket outlet. This mirror should not be installed on a damp or conductive surface and locate well away from curtains and other fabrics. Do not leave this mirror on for extended periods, please switch off after use. This appliance is not to be used by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given instruction or when properly supervised.

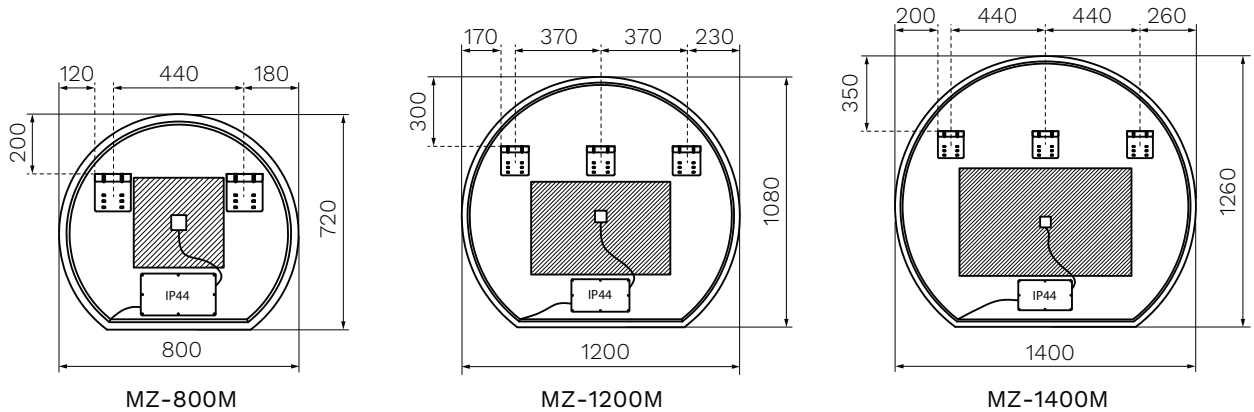

This includes children who should be supervised to ensure they do not play with the device.

INSTALLATION INSTRUCTIONS

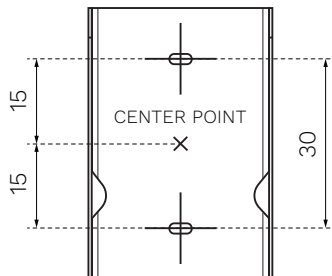

ATTENTION

Please ensure there is a **150mm gap** between the countertop and the bottom of the mirror when installing to wall. Fitting the mirror onto the countertop can cause water damage and browning to the mirror.

- 1** Measure and mark the distance between the mounting brackets according to the mirror size options below.

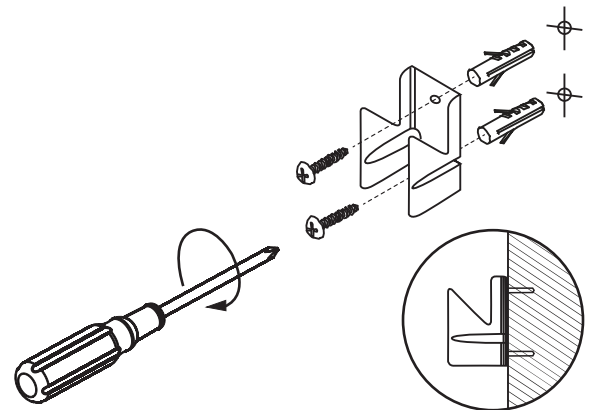

- 2** Mark the selected positions of the fixing bracket holes, top and bottom on the wall and drill accordingly.

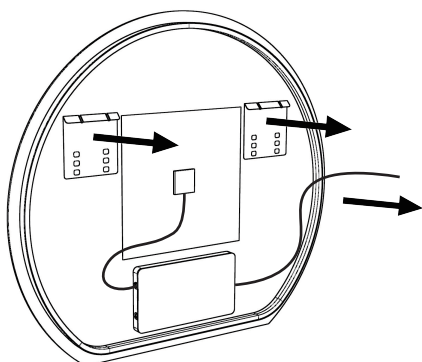

WALL FIXING BRACKET

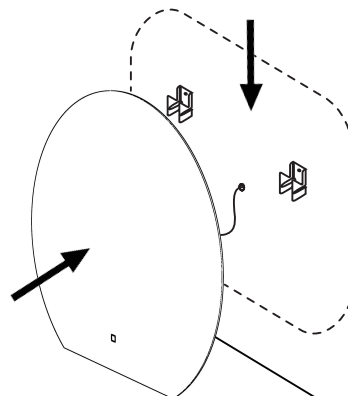

- 3** Fix the mounting brackets to wall.

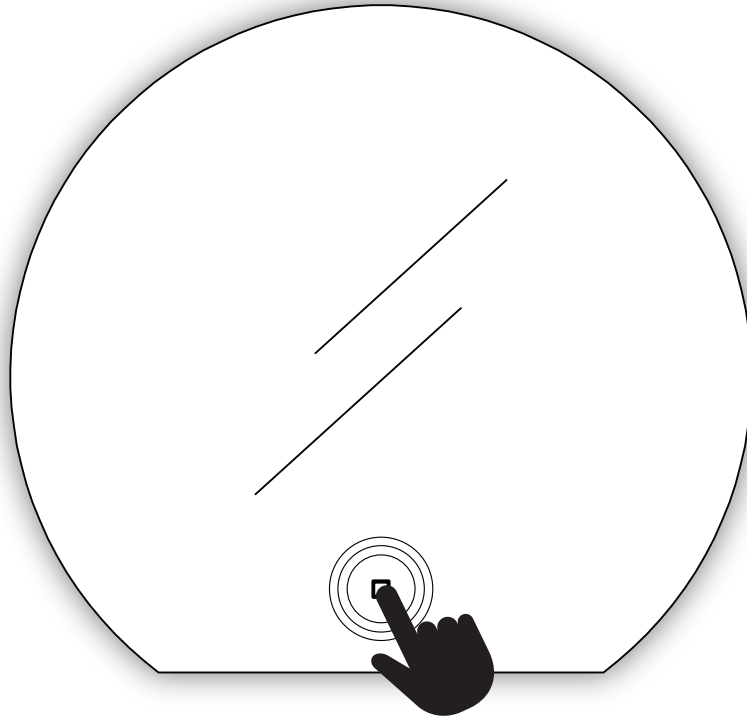

- 4** Position the mirror adjacent to the wall brackets and feed the electrical wiring through wall.

- 5** Secure mirror to wall.

CONTROL: TOUCH SENSOR

1. Touch the sensor to switch on/off the LED light.
2. When the led light is on, press and hold the button to change the colour temperature from warm to cold/cold to warm.
3. The demister will turn on/off with the LED light. The demister will turn off automatically after one hour if the LED is left on.
4. The switch has a memory function. So, once the LED light has been adjusted to the preferred colour and turned off, the next time the light is turned on the preferred light will be automatically adjusted.

WARRANTY

PARISI offer a lengthy and comprehensive warranty against manufacturing defects, which is in addition to that required under Australian Consumer Law.
