

## 7031

Reframe | Shower wiper

Shower wiper Hand polished steel

Separate shower wiper and wall mount with integrated magnets to keep the wiper in place. The wiper consists of two parts; a reinforced steel frame and a high quality silicone blade. This construction ensures an effective and even cleaning of all surfaces. Built in 'bumpers' on all sides protect your tiles from scratches and marks. The silicone element is very hard-wearing and lasts a long time.
