The Arcisan Fusion Air handshower and slide rail set features a three setting handshower. The handshower bracket slides up and down, enabling you to set the perfect height for your shower.

The Arcisan Fusion Air handshower draws in air to the handpiece, whilst internal turbines combine water and air to creating a fuller, heavier shower spray pattern.

Available in a large range of colours and finishes, there will be a slide rail set to suit any bathroom style.

INFORMATION

Pressure Rating
150 - 500kPa

Hot and cold water inlet pressures
should be equal.
